

# Organised Bathroom Checklist

Are you after a fresh approach to your bathroom? Perhaps you're dreaming of what a little extra storage could do for this space? Our Organised Bathroom Checklist provides you with tips to keep you and your bathroom organised and in-check.

- Declutter** – Take a look around, are there a lot of items on bench tops that could be stored away? Could your cupboard do with a clear out? Work out what can be thrown away, what can be stored and what really needs to be displayed on your bench tops.
- Evaluate your storage** – Having enough storage is essential to an organised bathroom. A custom easy-build unit will give your spare towels, bathrobes and bathroom basics a home.
- Beautiful bench tops** – For everyday items that need to be displayed, make a feature out of them with attractive holders and containers. Our range of quality, durable organisers such as the Cotton Wool Jar and Hairbrush Holder are a perfect display for your everyday items.
- Separate** – Give each member of the family a designated drawer or a Sterilite caddy in the cupboard to keep their personals organised.
- Organise the drawers** – Keep your cosmetics neatly grouped and enjoy instant makeup order with a drawer Makeup Organiser
- Wall fixed storage** – For tight spaces a great way to add storage to your shower is with shower baskets, shelves or all-purpose caddies.
- Laundry hamper** – Overflowing laundry is an eyesore, so invest in a hamper that looks good and doubles as part of your bathroom décor. The Pine Double Laundry Hamper is big enough to fit all your washing and still looks beautiful.
